اسماعيل زارع

برنامه ای بنویسید که کلمه ای از کاربر دریافت کند و معکوس آن را چاپ کند

```
py (3.11.1). معكوس كلمه/py - C:/Users/zare-e/Desktop. معكوس كلمه
                                                                                 X
                                                                           File Edit Format Run Options Window Help
st = input("Enter Your word: ")
p=list(st)
i=0
s=0
q=len(st)
while i<= q-1 :
    s=p[i]
    p[i] = p[q-1]
    p[q-1]=s
     i +=1
     q -=1
text = ''
for i in p:
     text = text + str(i)
print (text)
 A IDLE Shell 3.11.1
                                                                            X
File Edit Shell Debug Options Window Help
    Python 3.11.1 (tags/v3.11.1:a7a450f, Dec 6 2022, 19:58:39) [MSC v.1934 64 bit ( ^
    AMD64)] on win32
